

Oyster River Local Advisory Committee

www.oysterriverlac.org

April 10, 2012

On April 9, 2012, the Oyster River Local Advisory Committee (ORLAC) voted to provide comment on the following proposed activity that will occur within the Oyster River's designated corridor in Durham, NH.

Proposed by: UNH/DURHAM WATER SYSTEM

Project title: WATER METER UPGRADE, WATER SYSTEM EPA ID 0691010

The ORLAC comments that the installation of an automatic water meter reading system will increase the collection and accuracy of water usage data in Durham. Improved water use information could be informative in protecting the resource values and characteristics for which the river was nominated.

Respectfully,

Eric Fiengenbaum
ORLAC 2012 Chair
